STEER FR STABLE FUND

STEERCAPITAL

Minimum disclosure document - Class A - as at **31 October 2026**

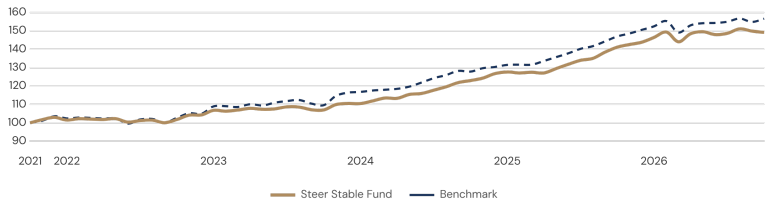

OBJECTIVE

The Steer FR Stable Fund aims to achieve stable capital appreciation with low volatility.

INVESTMENT POLICY

In order to achieve its objective, the investments to be included in the portfolio may comprise a combination of local and global assets in liquid form, equity securities, notes, property securities, preference shares, convertible equities, interest bearing instruments, derivatives and non-equity securities. The portfolio may from time to time invest in listed and unlisted financial instruments, in accordance with the provisions of the Act, and the Regulations thereto, as amended from time to time, in order to achieve the portfolio's investment objective. The portfolio's equity exposure will not exceed 40% of the portfolio's net asset value.

PERFORMANCE (NET OF FEES)

The investment performance is for illustrative purposes only. The investment performance is calculated by taking the actual initial fees and all ongoing fees into account for the amount shown, and all income is reinvested on the reinvestment date. Individual investor performance may differ as a result of the initial fee, the actual investment date, the date of reinvestment of income and dividend withholding tax. Effective 21/11/2025: Steer Stable FR Fund amalgamated with Steer BCI Stable Fund. Annualised return is the weighted average compound growth rate over the period measured. Periods of one year or less are actual returns and are not annualised.

Where the asset allocation contained in this MDD reflects offshore and equity exposure, the portfolio is exposed to currency and equity risks. The portfolio is exposed to default and interest rate risks. Therefore, it is suitable for medium term investment horizons. The expected potential long-term investment returns are lower but less volatile over the medium to long term than higher risk portfolios.

INFORMATION AND DISCLOSURES

Annualised Returns

Annualised return is the weighted average compound growth rate over the period measured. It expresses the return of a period longer than one year as the equivalent return for a single year, so that periods of different lengths can be compared on the same basis. Because it is an average, an annualised figure does not show the return achieved in any individual year within that period, and the return in any single year may be materially higher or lower than the annualised figure. Returns shown for a period of one year or less, including the year-to-date figure, are the actual returns for that period and are not annualised. Annualised returns are calculated on a net asset value to net asset value basis with income reinvested on the reinvestment date, and do not take any initial fee into account. Individual investor returns may differ as a result of the initial fee, the actual investment date, the date of reinvestment of income and dividend withholding tax.

Risks

Certain investments - including those involving futures, options, equity swaps, and other derivatives may give rise to substantial risk and might not be suitable for all investors. Where foreign securities are included in the portfolio there may be additional risks such as potential constraints on liquidity and repatriation of funds, macroeconomic risk, political risk, foreign exchange risk, tax risk, settlement risk as well as potential limitations on the availability of market information.

* Total Expense Ratio (TER)

Please note: A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The prior year ("PY") TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 31 December 2025, whilst the underlying portfolios' ratio and cost calculations are based upon their most recent published figures, being 30 June 2026.

Effective Annual Cost

Fundrock Collective Investments adopted the ASISA Standard on Effective Annual Cost ("EAC"). The EAC measure allows you to compare charges on your investments as well as their impact on your investment returns prior to investing. For further information regarding the ASISA Standard on Effective Annual Cost and access to the EAC calculator please visit our website at www.fundrock.co.za. FR calculates the EAC as per the ASISA standard for a period of 3 years up till the most recent TER reporting period.

#Monthly Fixed Admin Fee:

R15 excl. VAT which will apply to all direct investor accounts with balances of less than R100 000 at month end, unless an investor transacts online, in which case no such fee will be levied.

Total Investment Charges

TOTAL EXPENSE RATIO (TER)	TRANSACTIONAL COST (TC)	TOTAL INVESTMENT CHARGE (TER & TC)
0.95	**0.03**	**0.98**
Of the value of the Fund was incurred as expenses relating to the administration of the Fund.	Of the value of the Fund was incurred as costs relating to the buying and selling of the assets underlying the Fund.	Of the value of the Fund was incurred as costs relating to the investment of the Fund.

FAIS Conflict of Interest Disclosure

Please note that your financial advisor may be a related party to the co-naming partner and/or FR. It is your financial advisor's responsibility to disclose all fees he/she receives from any related party. The portfolio's TER includes all fees paid by portfolio to FR, the trustees, the auditors, banks, the co-naming partner, underlying portfolios, and any other investment consultants/managers as well as distribution fees and LISP rebates, if applicable. The portfolio's performance numbers are calculated net of the TER expenses. The investment manager earns a portion of the service charge and performance fees where applicable. In some instances portfolios invest in other portfolios which form part of the FR Scheme. These investments will be detailed in this document, as applicable.

Investment Manager

Steer Capital (Pty) Ltd is an authorised Financial Services Provider 49006. Steer Capital has sub-delegated a portion of the management of investments to Terebinth Capital (Pty) Ltd, who is authorised as a Financial Services Provider under the Financial Advisory and Intermediary Services Act, 2002 (Act No. 37 of 2002) (FSP 47909). Additional information, including application forms, annual or quarterly reports can be obtained from FR, free of charge or can be accessed on our website www.fundrock.co.za. Valuation takes place daily and prices can be viewed on our website (www.fundrock.co.za) or in the daily newspaper. Actual annual performance figures are available to existing investors on request. Upon request the Manager will provide the investor with portfolio quarterly investment holdings reports.
